Description:

Winners Cube

Innovative and, modern concepts, along with stunning design makes Winners' Cube the most unique instant redemption game on the market. With its clean design, captivating music and very mesmerizing looks, Winners' Cube is a real winner !

This wonderful machine will remind all players that everyone can win,but to be a winner, you must plan to win, prepare to win and expect to win - Players of all ages sense an incredible redemption experience !

The clean design and construction of Winners' Cube follows a transparent thematic design that portrays a clean, suave and modern look and feel. The luxurious exterior design and brilliant interior lighting makes the Winners' Cube the ultimate attraction in any location. Prizes are displayed through a gigantic transparent display and bright white lights are used to illuminate the prize shelves with a glamorous and sleek attitude.

The objective of Winners' Cube is remarkably simple. Players will be controlling the movement of a slim rod that is mounted onto a motorized mechanism with two buttons that control the horizontal and vertical movements of the rod. Once the button is released, the movement of the rod will stop at the location of the desired position. Players will have 20 seconds to plan, and position the rod so that it is aligned to an opening hole of the prize display. Once the rod is positioned successfully, the motorized mechanism will proceed to extend the rod into the hole where it will push a prize off the clear display shelf and drop the prize into the redemption basket.

### Description

Snork Suck Candy prize game machine

Product name: Snork Suck Candy prize game machine

Place of origin: GuangDong, China

Brand name: HomingGame

Model: R118

Size: W100x D110x H120CM

Power: 1600W

Colour: Yellow

Type: Snork Suck Candy prize game machine, game machine, arcade game machine, prize game machine, coin operated game machine, amusement machine, amusement equipment, Amusement equipment, coin operated game machine, game machine, coinop game machine, arcade games, Snork prize machine.

Features:

- 1, New games, more attractive
- 2, Luxury appearance, new design.
- 3, candy machine, prize game machine, vending machine, amusement equipment, amusement machines.

Play instruction:

1. Insert coin[s] to start the game. The adjustable timed round begins and is displayed counting down.
2. Use the 4-way joystick to position Snork's nose left or right, over the desired candy and/or prize you wish to capture. By moving the joystick forward, you will control Snork's nose in the downward direction until it reaches the surface of the candy and/or prizes as they slowly revolve around the center prize chute. Pulling the joystick back after capturing your prize will lift Snork's nose out of the prize bin. Then move the joystick left or right to move the captured prize over and above the center prize chute. You can now press the DROP button, (which turns off the vacuum system temporarily), and continue to hold it down to drop your prize- or, you can simply let go of the joystick at this point and at the end of the timed round, Snork will automatically return to the center and drop any captured candy and/or prizes into the prize chute for you!
3. The game is Operator adjustable to either end the game at any candy and/or prize detected in the prize chute- or, you may have time left and return to try and capture even more candy and/or prizes before the time runs out!
4. When the time runs out, the game is over.
5. An alternate Nose tip "A" and "B" ["A" is installed at the factory] is included with the game and allows Operators to easily control the number of candy pieces and/or prizes able to be picked up at any time by having more or less holes for the vacuum to pass through.
6. Wrapped candy, toy capsules [up to 2.5" in diameter], and many small toys may be operated separately or combined to offer a wide range of choices to Players.
7. Additionally, an Operator adjustable setting within the Menu automatically lifts Snork's nose out of the prize bin half way if the nose is held down too long to prevent piling up of candy and/or prizes and to reduce the risk of damage.

Short description:

The BarBerCut Lite game concept is simple : Players use the two control buttons to try to make the automated scissors cut the string that holds the prize of their choice, which releases the prize. Anyone can understand and play this game on their first try, making it a hit for all ages !

When players notice a cut string hanging in the machine - symbolizing a prize that another person has already won, and they feel compelled to win a prize of their own. That instantly makes this game more addicting than any other prize redemption arcade game on the market today, and those repeat players will land right inside your cash box !

Barber Cut Lite glows white to attract customers, and boasts high-value prizes of virtually any size. Prizes can even be as small as a CD or gift card! Operators can get creative with their prize mix and hang them on their own with ease. This game is unlike any prize redemption game in history. It outperforms competitors week after week, and it is sure to be a huge success at your location

#### Description

Snork Suck Candy prize game machine

Product name:Snork Suck Candy prize game machine

Place of origin:GuangDong ,China

Brand name:HomingGame

Model:R118

Size:W100xD110xH120CM

Power:1600W

Colour:Yellow

Type:Snork Suck Candy prize game machine,game machine,arcade game machine,prize game machine,coin operated game machine,amusement machine,amusement equipment,Amusement equipment,coin operated game machine,game machine,coinop game machine,arcade games,Snork prize machine.

Features:

1,New games,more attractive

2,Luxury apperance,new design.

3,candy machine,prize game machine,vending machine,amusement equipment,amusement machines.

Play instrucion:

1.Insert coin[s] to start the game. The adjustable timed round begins and is displayed counting down.

2.Use the 4-way joystick to position Snork's nose left or right, over the desired candy and/or prize you wish to capture. By moving the joystick forward, you will control Snork's nose in the downward direction until it reaches the surface of the candy and/or prizes as they slowly revolve around the center prize chute. Pulling the joystick back after capturing your prize will lift Snork's nose out of the prize bin. Then move the joystick left or right to move the captured prize over and above the center prize chute. You can now press the DROP button, (which turns off the vacuum system temporarily), and continue to hold it down to drop your prize- or, you can simply let go of the joystick at this point and at the end of the timed round, Snork will automatically return to the center and drop any captured candy and/or prizes into the prize chute for you!

3.The game is Operator adjustable to either end the game at any candy and/or prize detected in the prize chute- or, you may have time left and return to try and capture even more candy and/or prizes before the time runs out!

4.When the time runs out, the game is over.

5.An alternate Nose tip "A" and "B" ["A" is installed at the factory] is included with the game and allows Operators to easily control the number of candy pieces and/or prizes able to be picked up at any time by having more or less holes for the vacuum to pass through.

6.Wrapped candy, toy capsules [up to 2.5" in diameter], and many small toys may be operated separately or combined to offer a wide range of choices to Players.

7.Additionally, an Operator adjustable setting within the Menu automatically lifts Snork's nose out of the prize bin half way if the nose is held down too long to prevent piling up of candy and/or prizes and to reduce the risk of damage.
